

Lecture: 36

6. Step-2: Organizing data into training batches.

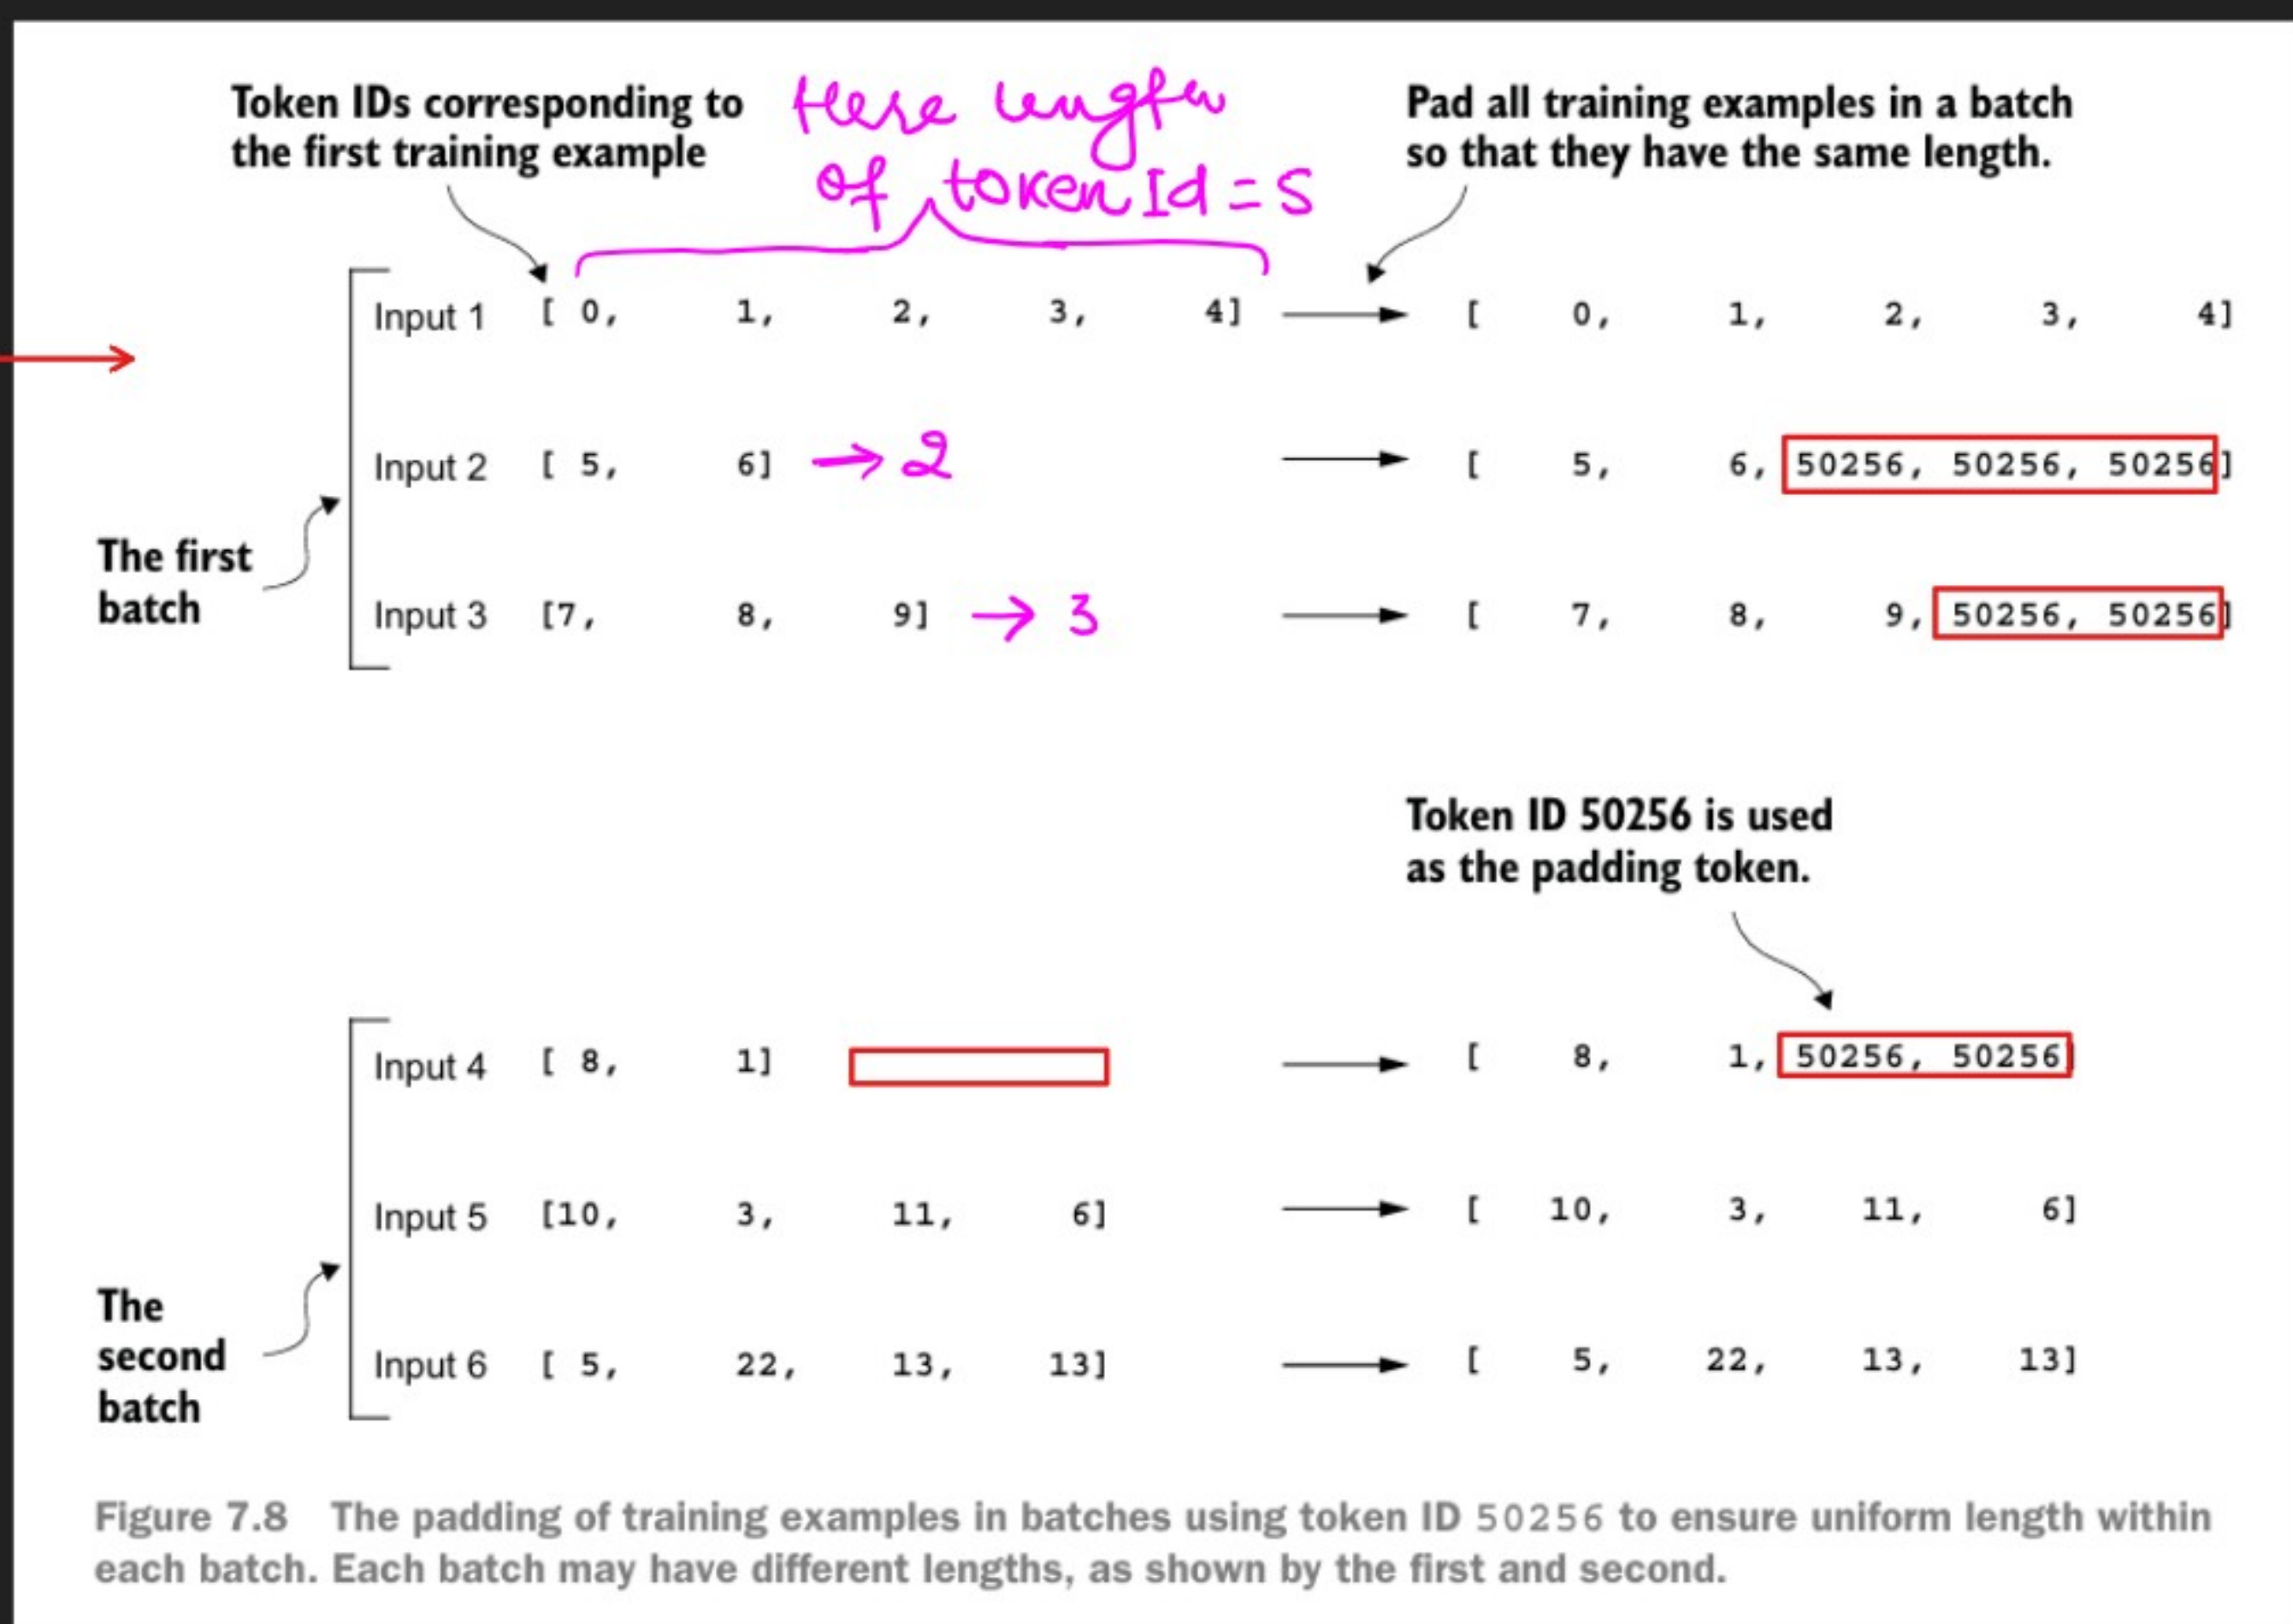

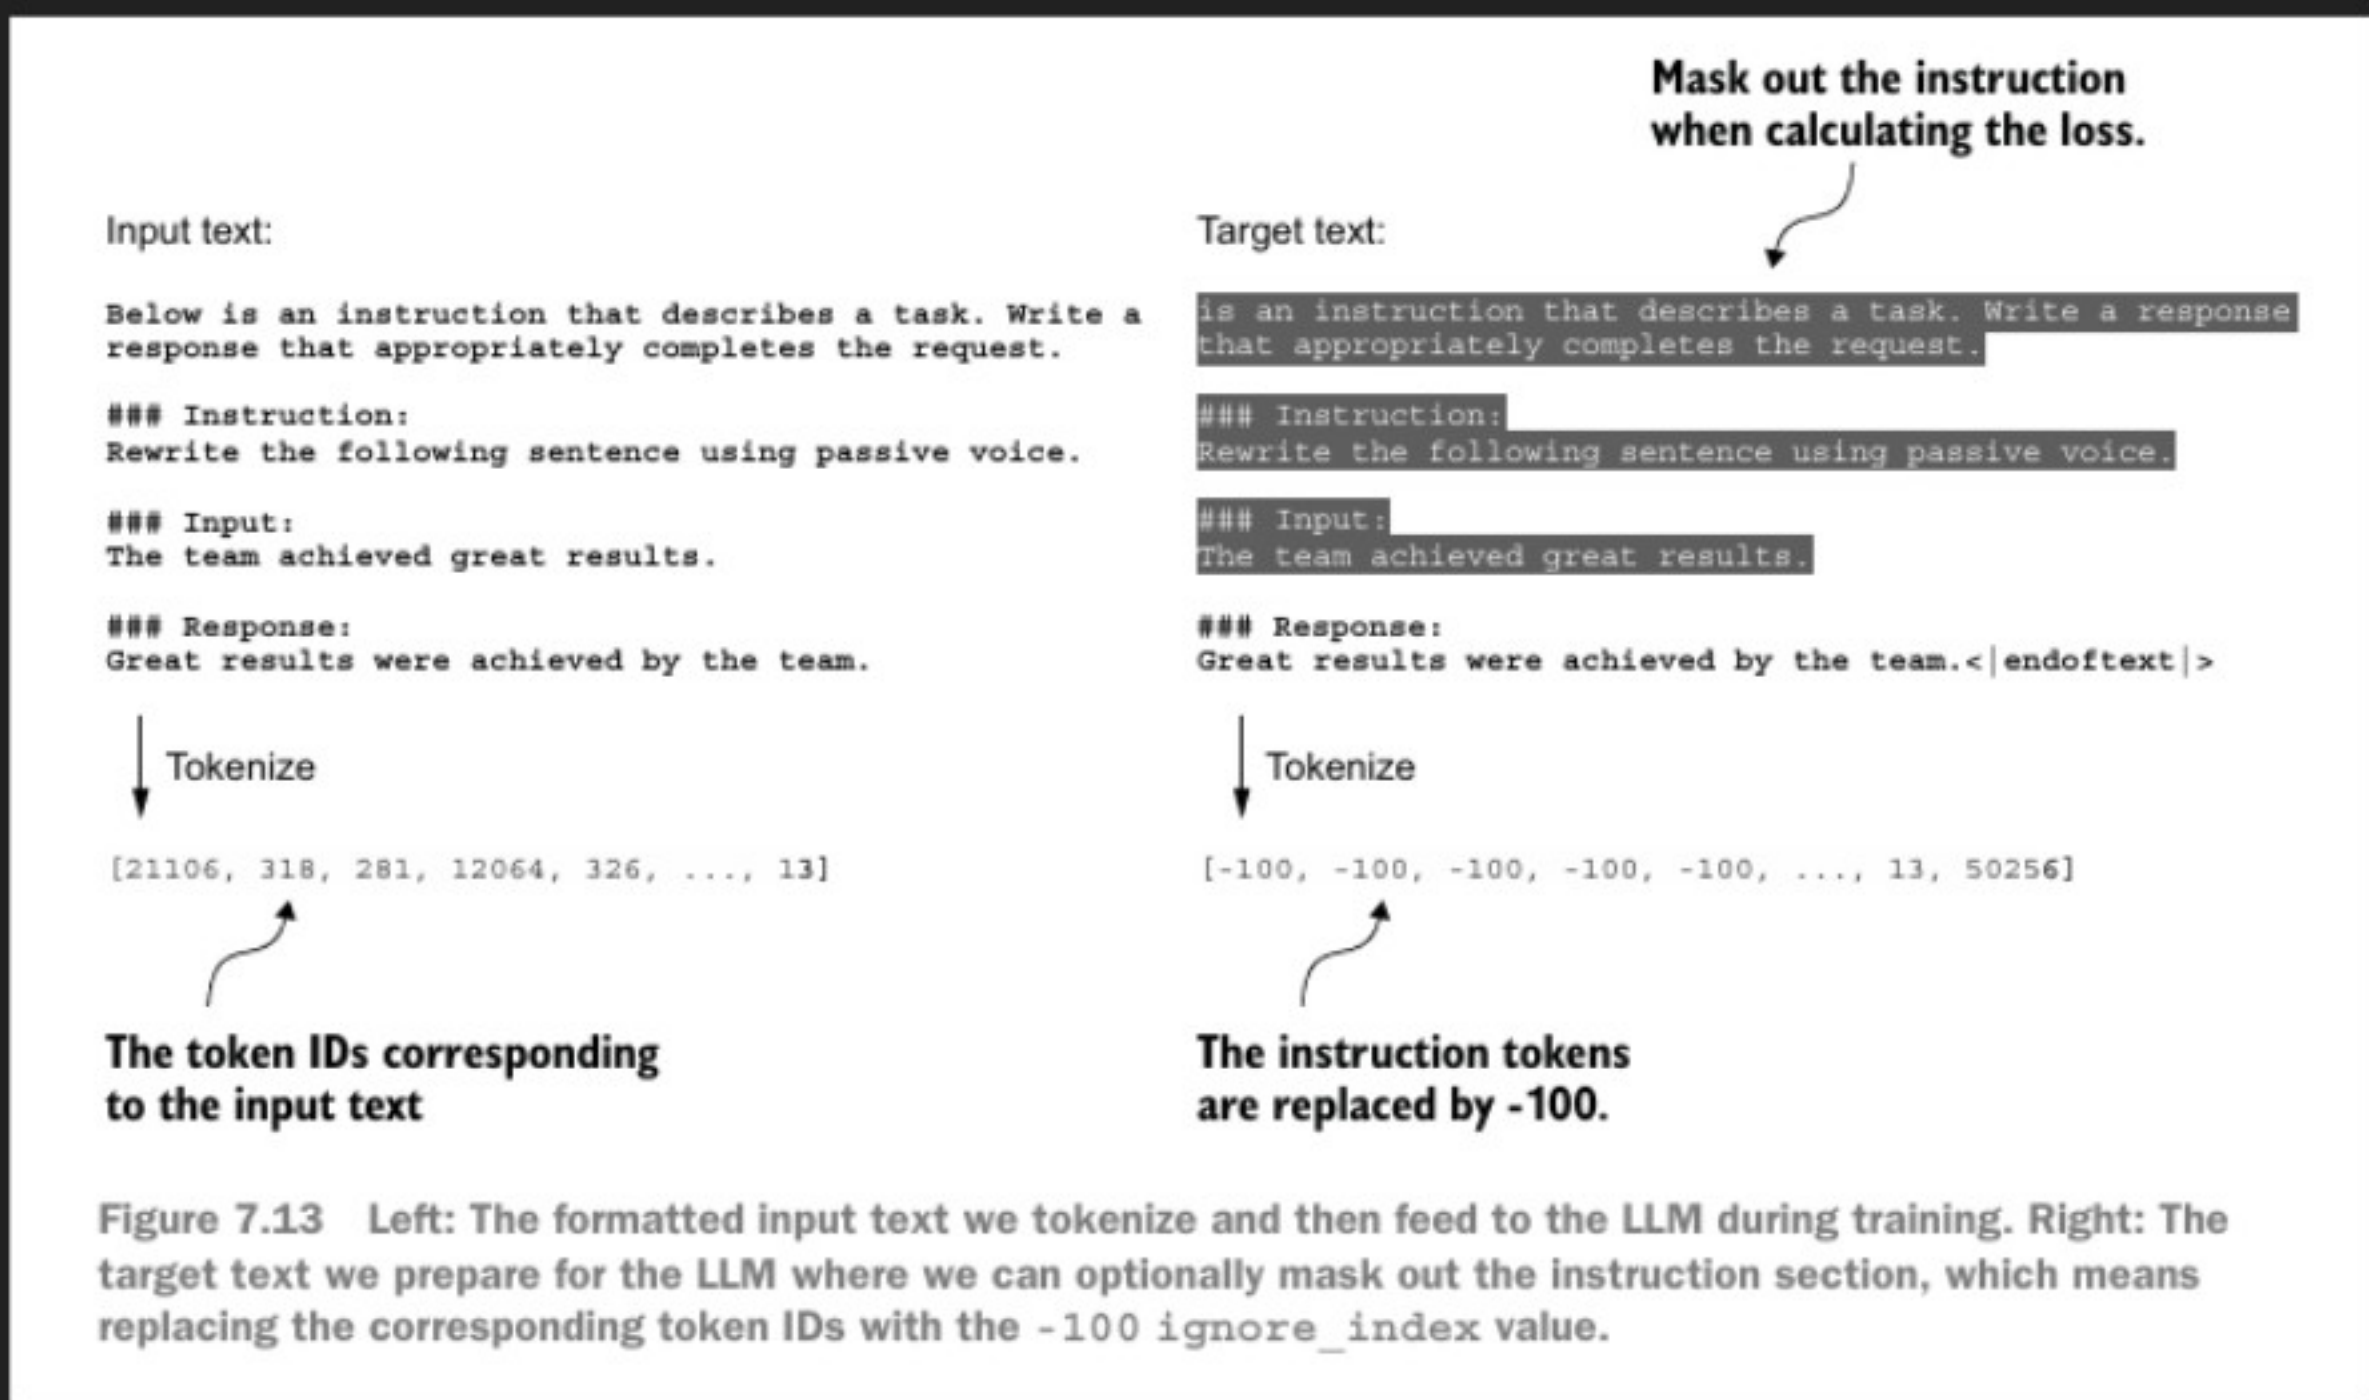

Here we can see that 1st prompt is longer than 2nd prompt.

Here we can see that different token ids of same prompt using Alpaca & phi-3

Now, here 2nd prompt is shorter than 1st prompt

* Masking target token IDs

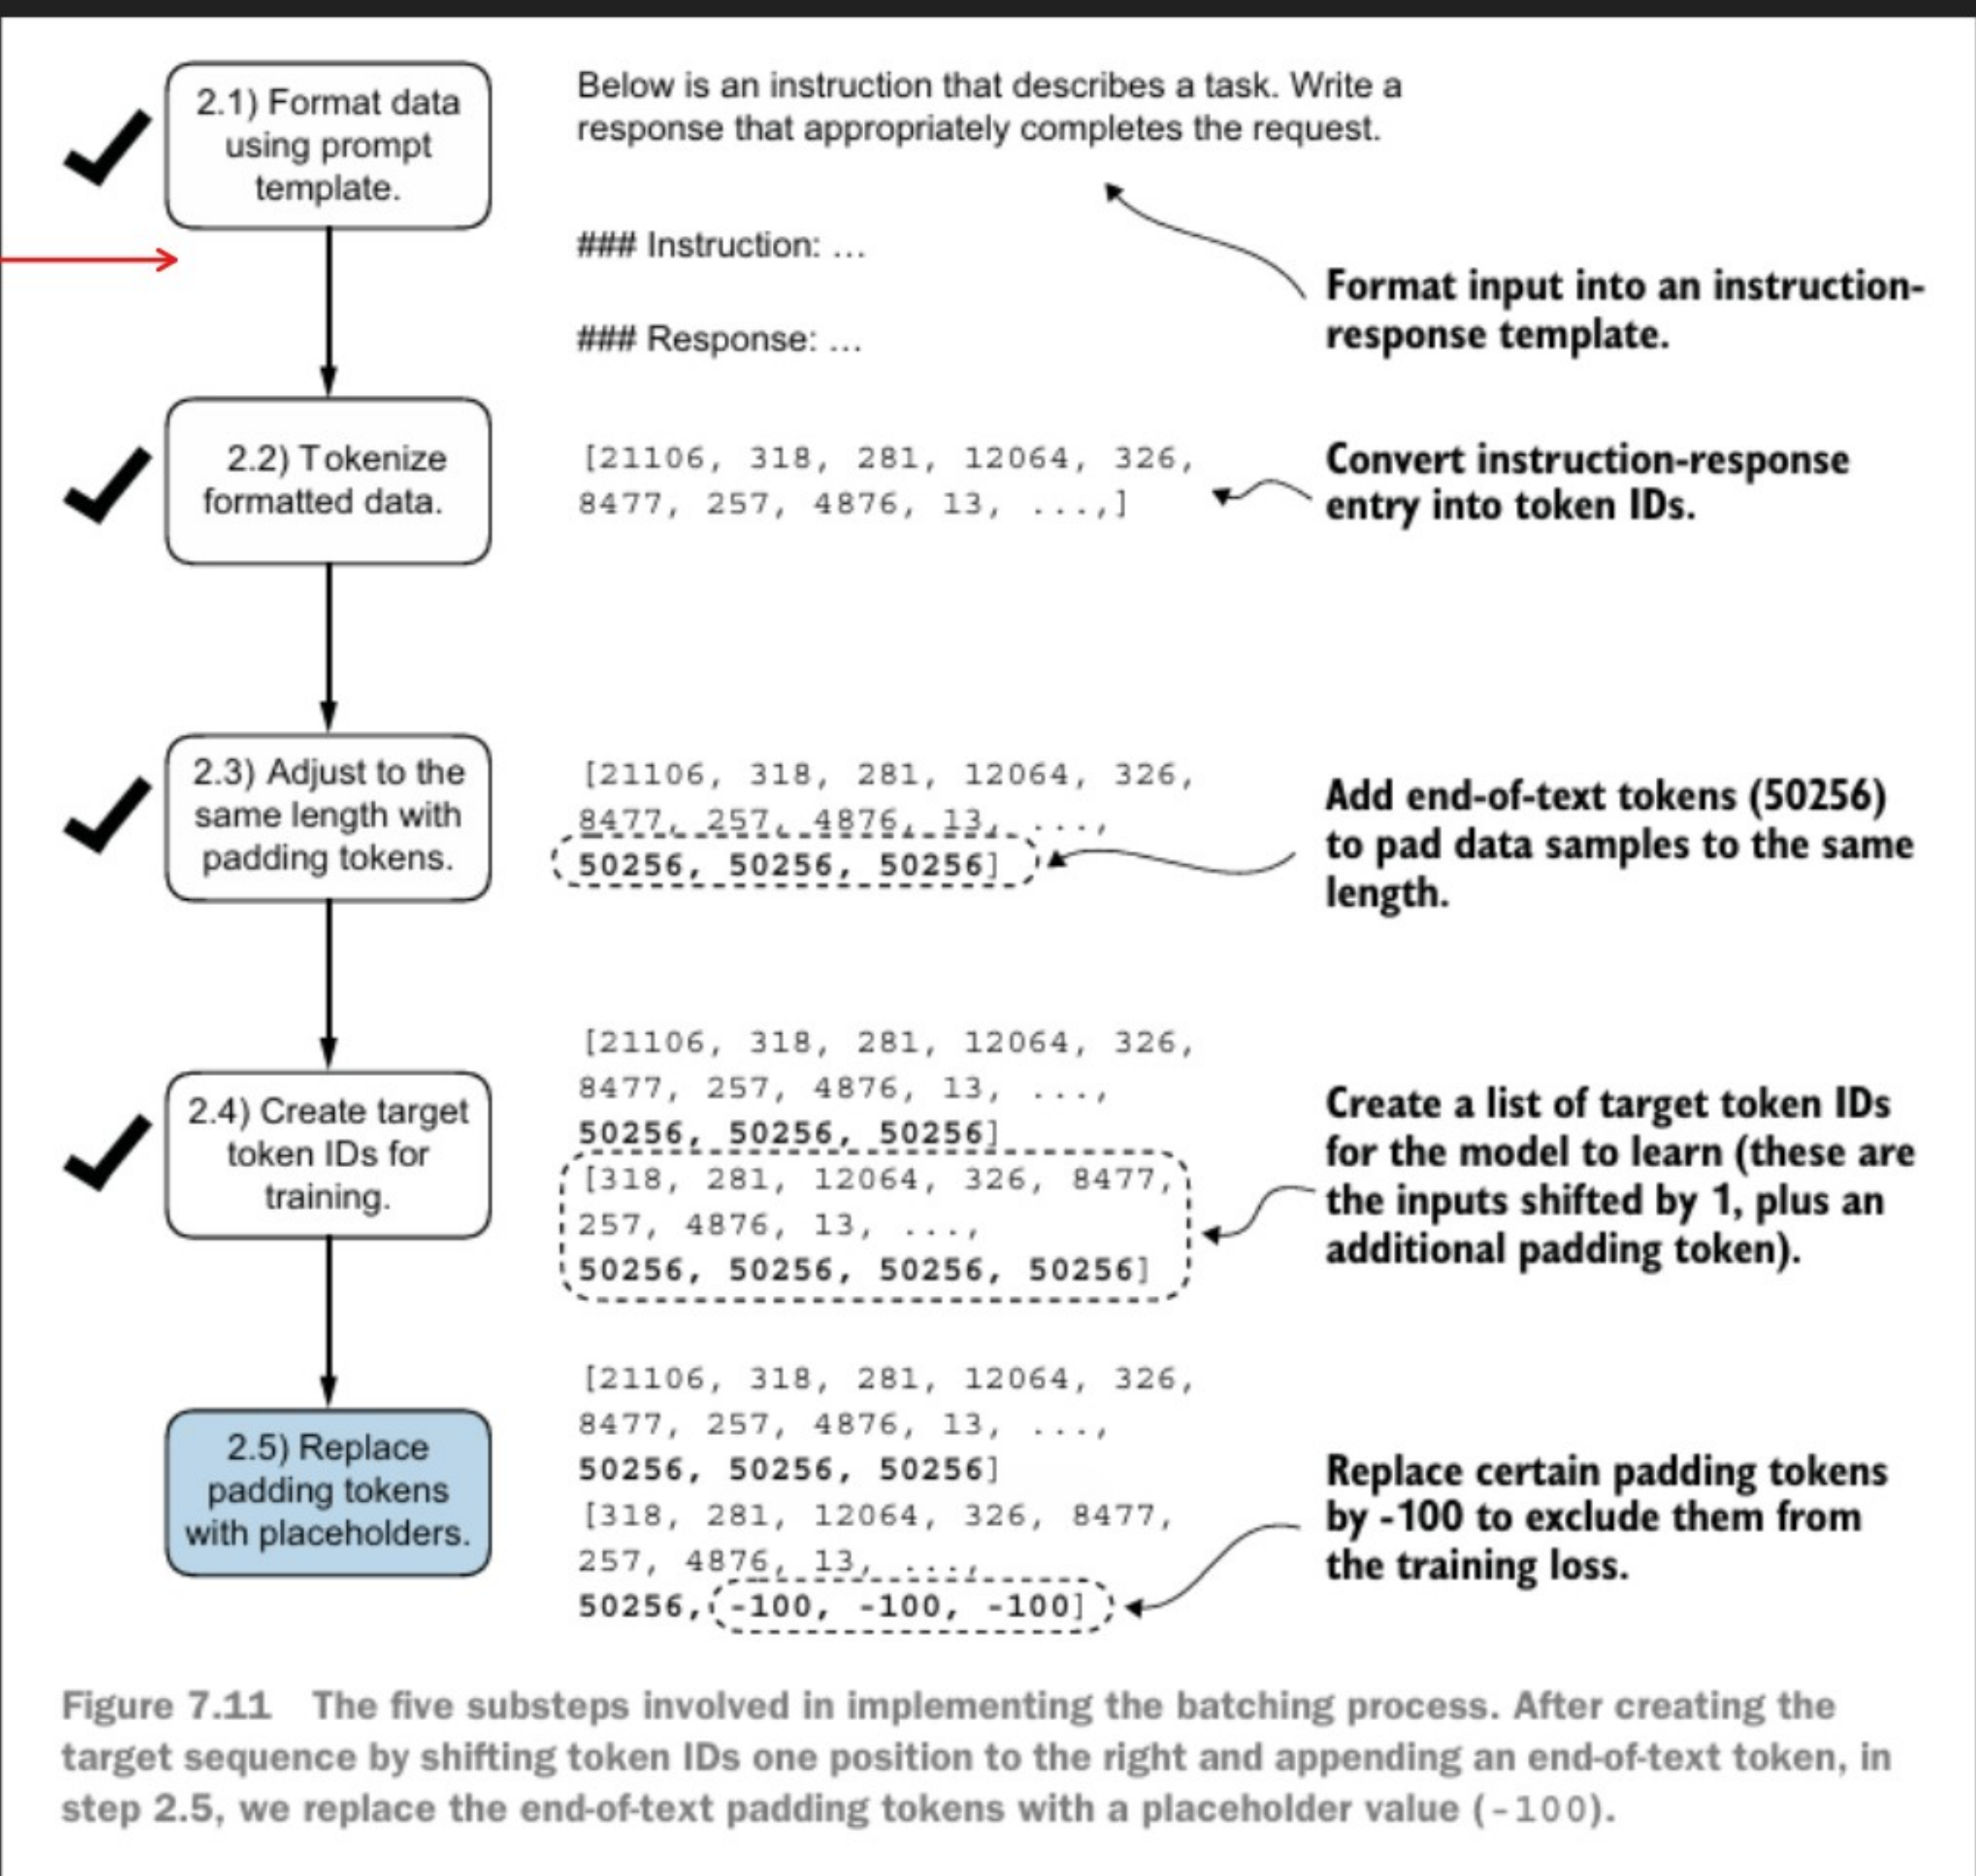

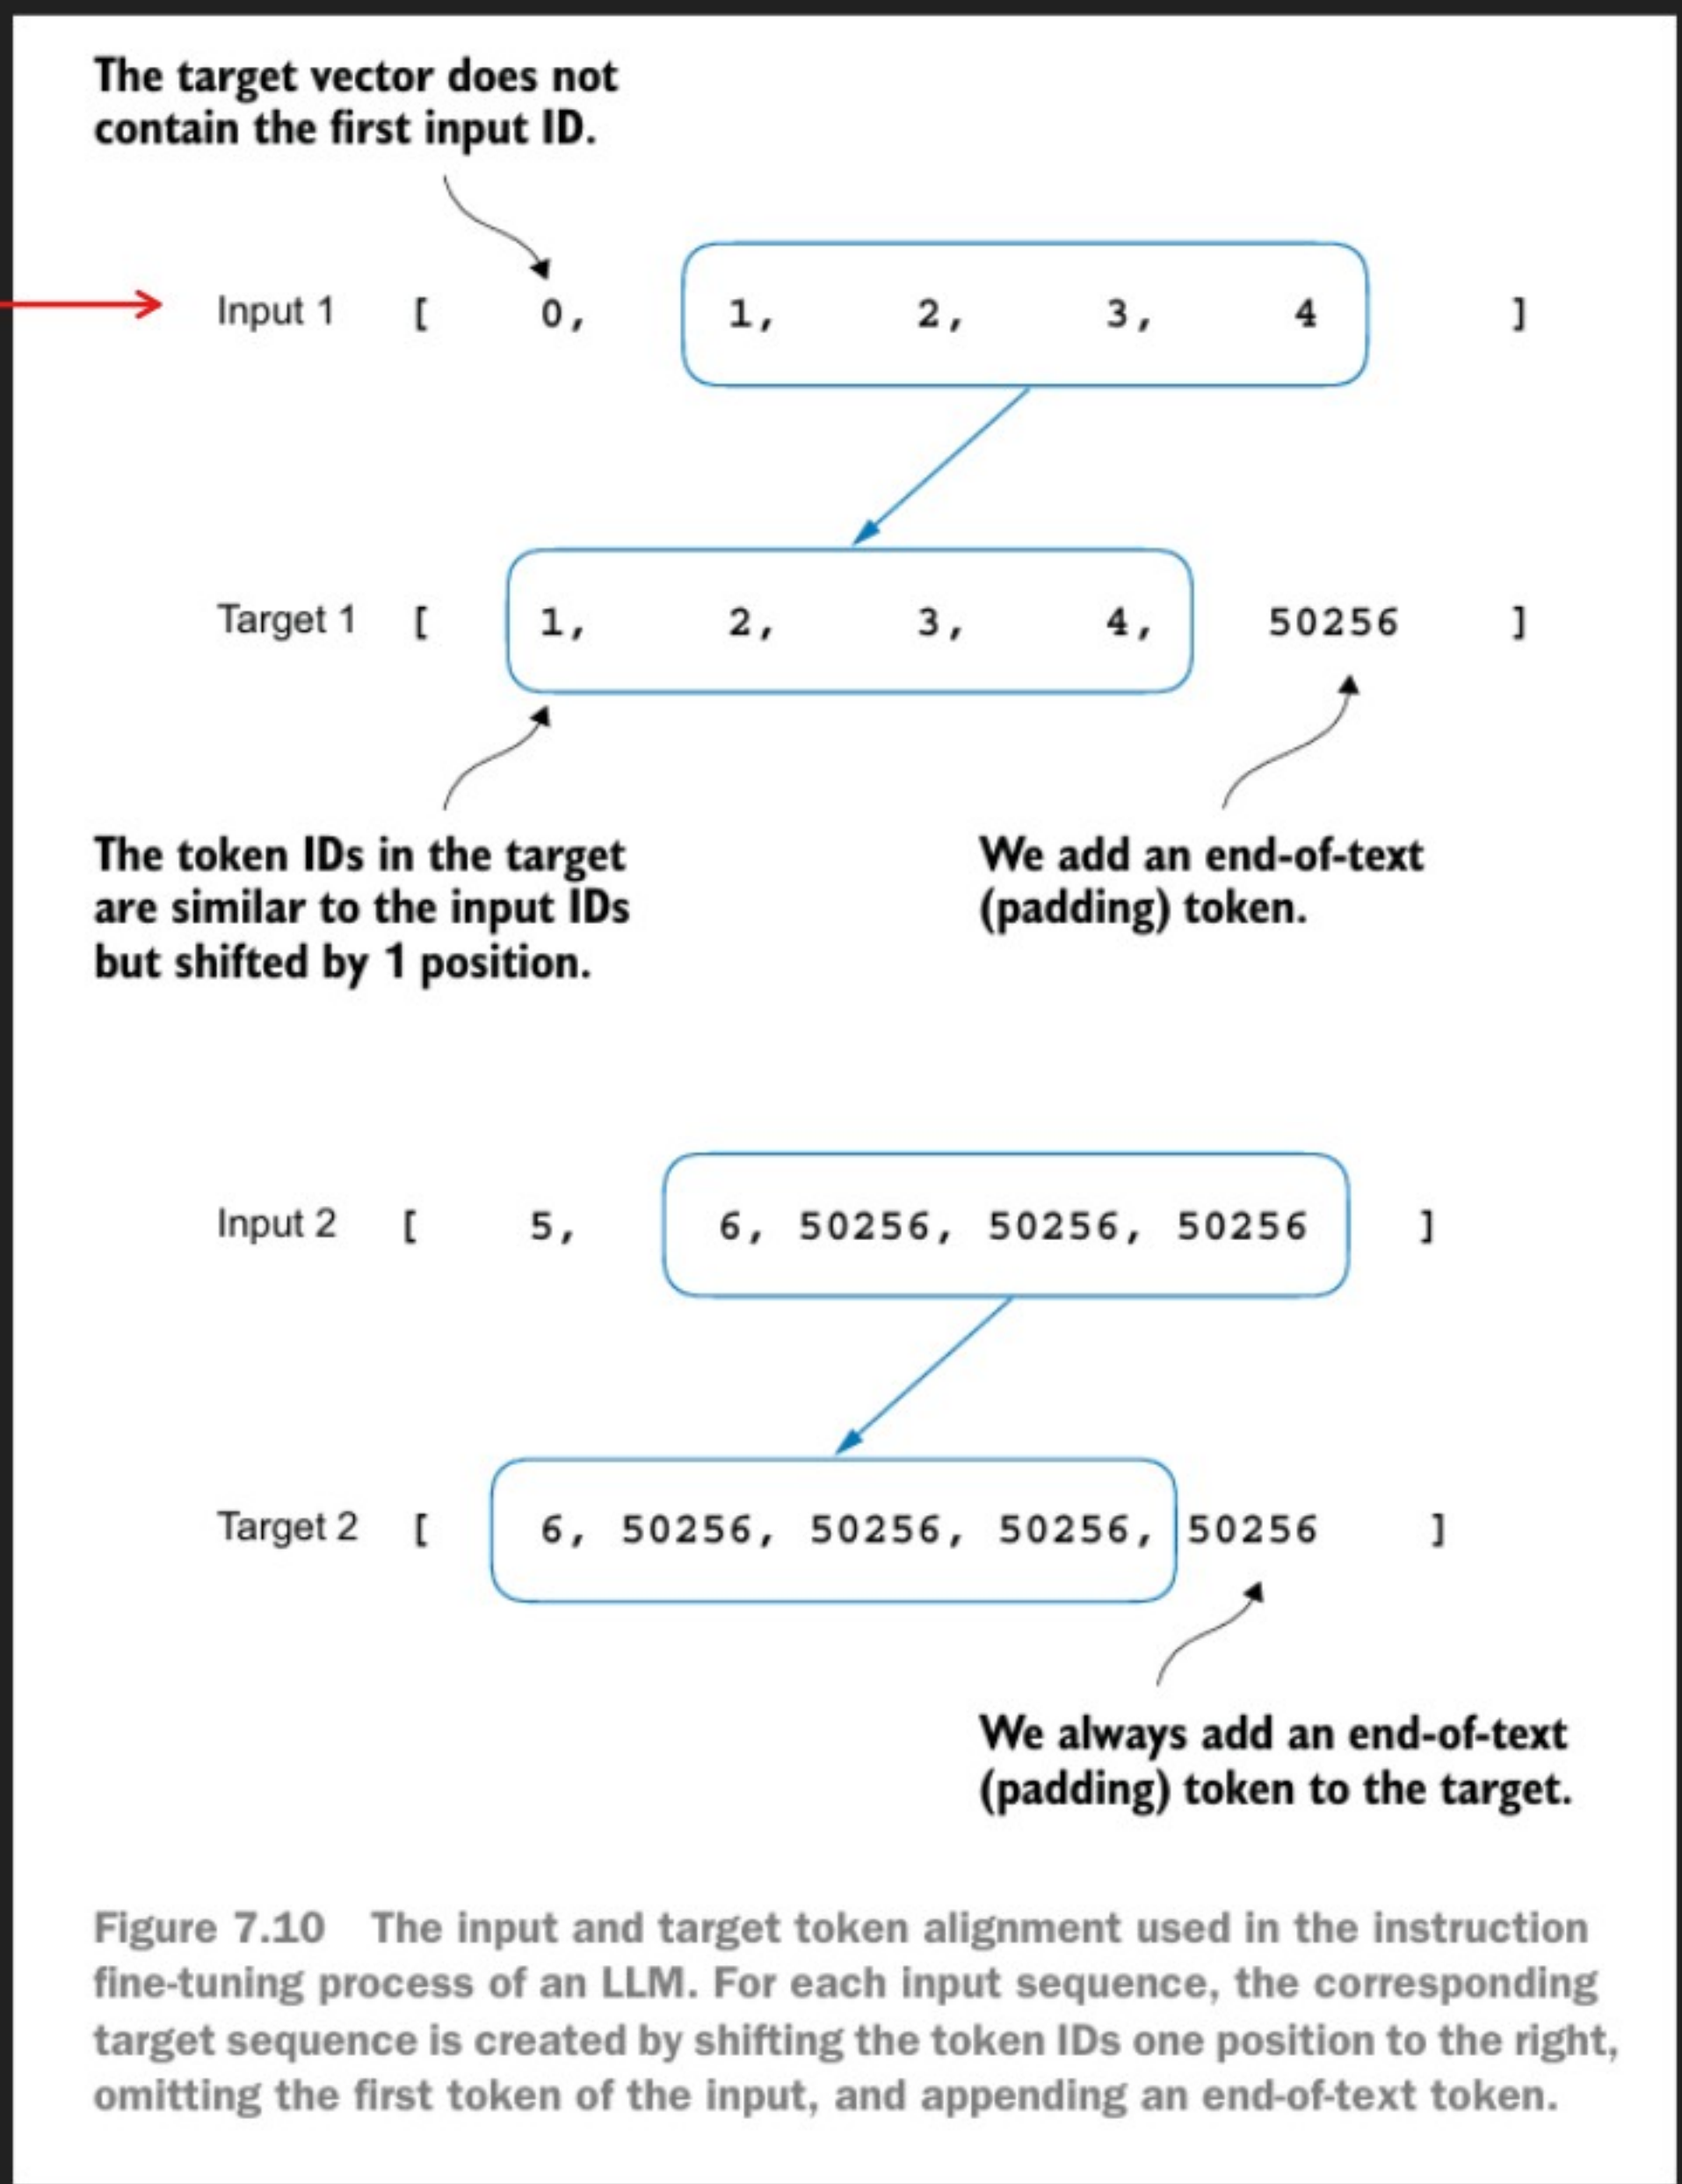

Here we can see that, now length of token id's is same.

GPT-2
↓
Vocab-size = 50256

0
↓
token=0

50256
↓
token
↓
last token of vocab
↓
end of text

It represented end of text, so nothing to change it.
